The STC4All Coalition

We're advocating for a Metro system that will serve ALL Angelenos and take you where you need to go.

Who are we?

We are a broad coalition of organizations working to ensure an accessible and equitable Sepulveda Transit Corridor (STC). Our members include:

Educational entities | Neighborhood groups | Environmental groups
Transit and Justice advocacy groups | Community groups | Business groups

What's our mission?

We believe the Sepulveda Transit Corridor must include the following:

- A **station on UCLA's campus**
- A **direct connection to the Metro D Line (Purple)** at Westwood Village.

If done correctly, the STC will be a game changer that:

- takes vehicles off the 405 and local streets;
- reduces greenhouse gas emissions;
- saves commuters money and time;
- improves access to education, business, healthcare, jobs and attractions; and
- serves to connect the entire Los Angeles region.

How you can join:

We are constantly expanding our coalition and welcoming new members and supporters.

Your organization has the option to join either as a supporter or a coalition member. There is no strict participation requirement for being a coalition member; you can be as involved as your organization allows. The main requirements of joining as a coalition member are:

- Including your logo on the STC4All.org website.
- Inviting your partners and members to join the coalition and take action.

To join, email us at contact.stc4all@gmail.com or visit our website at stc4all.org.
